Subject: 0452488HFD geboorte

Hi

Kan ek maar HFDFBMH 210119 her instel sodat haar kalf kan deurgaan ?

The screenshot shows a web browser window with the URL `logix.org.za/DataOpname/Errors/GeboortesC.php?beg=AHFD&batch=AHFD0452488BP53`. The page title is "Geboortes". On the left sidebar, there are several menu items: "Teken Af michelle", "VERANDER WAGWOORD", "Historiese Data", "Boodskappe", "English", "Dier redigering", "One Level Up/ Een Viak Op", "Deklys", "Inspeksies", "Lineêre klassifikasies", "Oordragte", "Kansellasies", "Beeste", "Geboortes", and "Seksie/subseksie herververwerking". The main content area displays an "Error report" for the identifier "AHFD0452488BP53". It includes buttons for "Refresh", "Show all AHFD", "Show all", "Make all ready", and "Delete". Below these is a dropdown menu set to "None". A "Reference:" section shows the "Owner: 0452488HFD". A table lists errors, with the first one being "HFDFBMH 260102". The error details state: "39. Moeder nie aktief op geboortedatum van kalf/27-JAN-26", "39. Interkalwing na vorige kalf is te groot - 795 dae -ras 790 (02-APR-24 - HFDFBMH 240043)", "39. Moeder behoort nie aan telers of eiernaar op geboortedatum van kalf nie", and "39. Moeder behoort nie aan die eiernaar (C O U) op geboorte datum nie". Buttons for "Show Data", "Exceptions", and "Waiting" are also present.
