

Hello Liezel

I have had a look at HFD F BMH 25-0076 (0099069940)

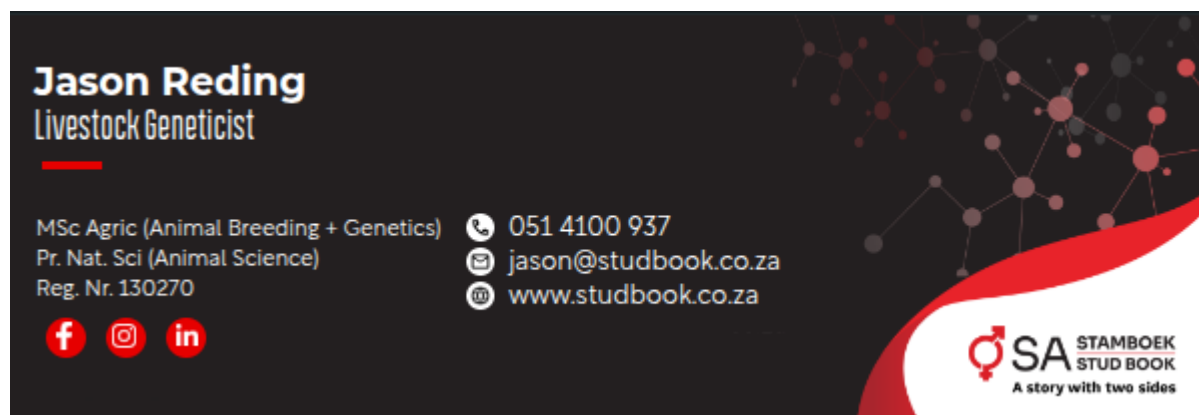

She is pending as her sire is currently only "Matching Sire".

-- does the sire not need to be "Matching Both Parents", after what year was this made compulsory?

So if we can just get the Dam verification to reflect, this bull will then no longer be pending!

-- she has 3 genotyped progeny, who are all sire verified, if push comes to shove we can maybe do a pseudogenotype for this cow?

Warm Regards

Goeie more almal, ek reageer gou op oom Bertus se skrywe

Oom Bertus, sal oom weer BMH26-03 se geboorte stuur, lyk nie of hy by ons deurgekom het nie

Hi Jason, can you please help:
BMH 250076 pending but DNA results have been completed

Oom Bertus, vir HFDMBMH 250028 – pa NJW 133A 6589 MANIFEST 87G ET moet genomies getoets word. Het oom 'n strooitjie wat ons kan gebruik hiervoor?

Michelle, sal jy help met die embrio kalwers navraag asb

Oom Bertus, sal oom asb die 2 bulle wat wys hulle is nie gekeur nie se nommers vir ons stuur dan kan ons net ons rekords ook nagaan.

Vriendelike groete

--
