Hi Marietjie

Asseblief die volgende kalf van die koei se rekord afhaal, volgens teler se antwoord op 'n navraag het die koei nie in 2024 gekalf nie, maar wel in 2025 en 2026.

Uittreksel uit epos van 14/09/2026

- TRB 250017 The days between her 2025 and 2024 calves are too few and this calf can therefore not be recorded. Is this her calf or possibly belong to another cow? Please check. (She did not have a calf in 2024, she (Mom TW1830) had a calf on the 16/04/2025 which is TRB250017 and again on the 01/09/2026 which is TW26034)

Kalf wat afgehaal moet word: **BONFTRB 240052 0098433519**

(Moeder is TW 1830)

Ter inligting is die epos waarop teler se antwoord gestuur is aangeheg.

Baie dankie en mooi dag.

Groete
