Good afternoon Thys

I hope you are well.

We were using a new extraction method for the Polled test. Although the method had been validated, we found that it was not giving consistent results.

As a result, we repeated all the samples that had been processed using the new method. Following the repeat testing, two of your samples have different results. Please see the updated Polled results attached.

We sincerely apologise for any inconvenience this may have caused and appreciate your understanding.

Should you need anything else, please let me know, and I'll be happy to assist further

Goeie middag Cari

Hoop alles gaan goed.

Hier is die pro-forma faktuur vir die myostatin en die poena toetse wat ek vanoggend ingevat het.

Stuur die POP vir my sodat ek seker maak hulle allokeer korrek.

O-ja, ek sien 'n fout op die katalogus wat ek aangestuur het waar Miki die lotnommers nou gedoen het volgens julle nommers. Daar is 2 lot 1's. Ek het vir haar 'n epos gestuur en gevra om reg te maak.

Dankie en groete

Thys
