Hi Suzette,

I trust that you are doing well.

As per our telephone conversation, could you please assist me with correcting the sex of a calf that was registered incorrectly on the system?

The calf number is TMG 25-09. She was registered as a bull, but she is in fact a heifer.

Could you please update the sex accordingly on the system?

Thank you very much for your assistance.

Kind regards,
Emmanuel Malatse
