Goelomore

Ek benodig die pedigree van St Blaize Miss Olga, sal jy dit asb vir my aanstuur sodat ek die stamboom van Miss Kimberley 68-19 kan aanteken.

Good morning,

Hope you are well,

261884U002—no profile on record of 55519-0068. We do have a sample 55517-0068 which is female on record.

261884U011—not identical to WRSZ18-0026, but identical to WRSZ18-0021.

261884U015(9026 9119)—the profile is identical to samples **23432U014 (9026-9119)—and 23432U038 (9026-9116)** with two different tags(numbers).

What is the tag of these animals?

Can I update the tag of sample 23432U038 to 9026-9119—Is the cow WRSZ17-0044 and bull AJ515-0040 possible as parents?

Have a great day,

Kind Regards,

Elzet Smit

Good morning

Please see attached my comments on the results.

@ Michelle

I will follow up again with the NSBA to make sure that we received the correct data with all animals bought from the ST Blaize Sussex Stud in Namibia.

I Have attached some pedigrees to resolve some DNA's.

Thank you

Kind regards / groete

Good day

Please see attached the result of the abovementioned batch.

We don't have profiles on record of the below bulls:

SS514-0068

SS514-0007

0135431205

SS519-0065 is female on record--Please verify the sex of this animal?

Is the below bull matches possible?

261884U006--SS519-0035

261884U010--VRSZ23-0030

261884U014--No identical profile on record.

We appreciate your support and look forward to working together again soon.

We trust that all information provided to us is complete and correct. We can only provide results with the information we currently have on record. Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories.

Kind Regards,

Human and Animal Genetic Testing
