### Disclaimer

Unistel report these results on the premise that the biological samples were sent from the individual's nominated by the owner/breeder/shipper. While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any errors that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claimant will exceed the value of the contract. Some DNA profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage or kinship due to: mislabeled or mislabeled samples or reporting mistakes between laboratories. Unistel Medical Laboratories participate in ISAG (International Standardization Association) and therefore incorporates international scoring standards in the generation of our DNA profiles. This certificate replaces all previously issued certificates.
