Dear Marietjie

Re- Pending registration of animals: 0124741000 for CG Sheard

I received an email list with pending animals.

The 2025 and 2026 batch will still be pending.

I would like to sort out the 2024 batch.

These hairs were submitted to ZooOmics for sire confirmation.

Since then, we have sold 3 of the males and need to be removed off studbook.

They are: 0097516603 CS240077;
 0097721971 CS240106
 0097939276 CS240137

The rest of the 2024 hairs were submitted to ZooOmics.

I will follow up with them. I know a few had sire conflict and I need to check whether I need to re-submit hairs to them.

Thanking you in anticipation for your help.

Kind regards
Rose Sheard
