More Eldore

Dis gaan aan daarmee, aangesien sy gese het hulle is bereid om koste te dra.

Mooi dag verder

Nico

Hallo oom Nico

Met verwysing na onderstaande eposse tussen my en Farrah Biggs.

Hulle het kallers wat vashaak op die foutelys a.g.v. 3(drie) 2024/25 kallers wat nie opgeneem is nie. Volgens haar moes dit opgeneem gewees het saam met die res van die kallers, maar sy kan my ongelukkig van geen bewyse voorsien nie.

EK het hulle aangeraai om die kallers NFR op te neem. Sy het my versoek om die 3 geboortes op te neem vir registrasie en is bereid om die kostes op laatgeboortes te betaal.

Hierdie 3 geboortes (T 24-317, T 24-318 en T 25-336) gaan ook vashaak omdat dit reeds 365 dae oorskry. Hiermee versoek ek toestemming om die uitsondering te forseer en die laatgeboortes op te neem.

Ek hoor graag van oom.

Groete

Morning Eldore

Sorry I have taken so long to respond.

Please capture these births as a late entry. We would like to keep them registered.

Kind regards

Farrah

NRF = not for registration; the cow's reproduction is recorded, but the calf is not registered as stud.

Kind regards

What does NFR Mean?

Hallo Farrah

I hope you have been well.

I can capture these 3 births for you, but please keep in mind that you will be invoiced for late birth notifications as indicated in the fee structure (see attached), except if we capture these births NFR.

Please confirm how I should continue.

Vriendelike groete
