Follow Up Flag: Follow up
Flag Status: Flagged

Ok the blow animal was already recorded but I simply changed the DAM.

Tag number 24-0001 (Registration number 24-7801)
Date of birth 15/08/2024
DAM VV22-0080
SIRE VV20-0063
Sex Male

Many thanks

Roy

Hi Roy,

No, I can not import this file, can you just send me the information.

Regards,

Hi Susan

I managed to correct the tag number of tag number 24-0001 (registration number 24-7801) in herdmaster & I also managed to find the correct dam which VV22-0080. I have attached a breed society report for this animal from herdmaster that you can hopefully import.

Best regards

Roy

Good morning Melissa,

Hope all is well with you. Please can you confirm on this sheet, it shows that the Ident differs and I think it must change, but when I look at the birth notification that you also send in, the name and Id is the same for example 25-7850.

Now my question, must we change the ID's as on the list and then also the new notification and you must then also make corrections to your Herdmaster.

Then I am also in need of the information of the following animals and if it is an Appendix A, I need the inspection date.

19-7752 OR, 19-7745, 23-5975, 25-4405, 25-4407, 25-0032, 25-7854, 25-4464, 25-4400(25-0100), 25-7862, 25-0175, 25-4490

Who is the dam of 24-7801 OR.

What means the grading F, this animal is recorded as not for – 23-4644 OR registration .
