Hi Eldore

Ek het so pas weer probeer (met kalf nr. KW260998 van moer nr. KW 23 16, GD 15/06/26 en NVR), maar dit bly net op my geboortekennisgewinglys.

Ek het ook nie 'n bevestigende epos ontvangs nie, so dit lyk asof Logix nie my data ontvangs nie.

Ek sal bly wees as jy dit kan opneem met Stamboek voordat ek my gros GK's instuur.

Groetnis

Kevin

While I have you online. I never got a notification for the birth that was giving trouble. Have you tried to capture the birth again?

Please provide me with the ID number so I can have a look?

Kind regards

Hi Eldore

Who is that likely to be?
