Negative**

Prof. A.J. Guthrie BVSc, PhD
Director: Equine Research Centre

* Issued in terms of Veterinary Procedural Notice: Surveillance For Contagious Equine Metritis in South Africa (1.6.2.c.) by the Molecular Diagnostics Section of the Veterinary Genetics Laboratory using the SANAS Accredited test method: DT 005. A Test Results Report will be issued on receipt of a written request by the submitter.

Dear valued client

05 December 2024

Herewith a clinical report on your horse: **Al Shaijj Baashir**

I hereby declare that the above mentioned horse was examined by myself and found to have:

- 2 well descended testicles
- No obvious major anatomical defects
- He has a good libido
- Is able to cover mares without assistance.

Diagnostic tests done:

- Clinical examination and behavioral observation.
- CEM Screening - Negative
- Dourine - Negative

Conclusion: I see no reason to exclude this horse from a breeding program.

Please feel free to contact me should you have any further queries.

Dr. J Jones (BVSc)
