Goeie dag

Die koei KD14 1407 se kalwing vir 2020 is nie op stamboek nie en dit beïnvloed haar TKP. Sy was as ontvanger gebruik en het gekalf op 5/8/2020 kalf was KD20 317 met skenker KD11 1128 en Power Take Off. Swart bulkalf

Aangeheg is die inplantingvorm (sy is heel bo aan die lys)

Ek wil asb dat die volgende kalwings deur getrek word na die embrio ontvangers, dit beïnvloed hulle TKP want volgens stamboek het hulle glad nie gekalf vir daardie jaar nie:

KD10 961 gekalf op 29/5/2020 kalf KD20 210 (NVR)

KD16 1514 gekalf op 29/5/2020 kalf KD20 211

KD15 1424 gekalf op 30/5/2020 kalf KD20 212 (NVR)

KD15 1459 gekalf op 3/6/2020 kalf KD20 216

Aangeheg is die inplanting vorm gedoen 30/8/2019

Asook KD10 915 (ingeplant 8/11/2019) - vind aangeheg

Kan ek asb 'n bewys kry dat die kalwings wys onder die ontvanger koeie?

Dankie!

Groete
