Good morning

Thank you for all your help. Just last 2 question..

1. SK171737 - Failed and the remark SBI - The sire is RK130090. Please check again as SK171716, SK171719, SK171720 AND SK171726 had the same sire - RK130090.

2. SK 171664 - There was a mistake in registration... She is definitely a Female as she is pregnant.. Going to check for the email that was hopefully sent regarding this. Please can you change to F..

Thank you

**Subject:** Re: FW: INVENTORY UPDATE AND QUERIES - 0082848AAN

Hi Again

All cancelled on 05/06/2019 - **NOT SURE WHY THIS WAS DONE - PLEASE** RE INSTATE **ALL THE BELOW EXCEPT SK101159 - Cull Old**  
**Sk 101159**; 121293; 171664; 171680; 181740; 181750; 171737; 181738 and 181755.

Not on record **MISSING COMPUTER NUMBERS - ONCE AGAIN NOT SURE WHY. PLEASE COULD YOU SORT THIS OUT IF YOU CAN... THE ONLY ONE THAT CAN BE LEFT OFF IS 181799 AS THE DAM WAS NOT REGISTERED.**

**SK 181741**; **181799** and 181804.

Sk 181741 had a problem with the Sire Convoy DNA missing. What is strange is that the other animals with Convoy as the Sire were accepted by Logix.... ie Sk 181746 being one.

X

Once again I am so sorry for all the problems. Once these are sorted everything is correct.

Good Day

Hope you are all well.. I have updated S Knott's, inventory list and submitted on line. I marked the animals that must be removed from the list.

However I have a list of animals that do not appear on the inventory and would like to find out why they are not there. There are 3 without computer numbers and I can not find notification why this is so.

Apparently there was an error with one of the Bull's that appears on the inventory, which I have requested to be removed as it is the incorrect bull and the correct bull needs to be added.

REMOVE - KCM 150014  
ADD - KCM 150041

Please could you check for me and let me know.

Many thanks

Regards  
Janey Knott
