Liezel,

Thank you for going through these docs. We can process the calves as it seems according to the records supplied he did send in births. Of concern is what happened to them and his query in 2018? Please also inform him that due to direct dealing he must send birth notifications directly to Marietjie at Stud Book. Also give him the contact details – tel #, fax # etc.

Thank you

Regards

Pat

Subject: RE: Per Capita List / Per Kapita Lys (Ephraim Mafalo)

Hi Pat, hiermee dan die opsomming van die dokumentasie wat Ephraim vir ons gestuur het:

1. ERMF10-69 (Born 27/11/2010) – age first calf (ERMF14-123) - ±40 months

- * calf ERMF14-123 born on 10/03/2014, birth notification doc. 10714 (attached). calf lost thru theft (got lost)
- * calf ERMF16-153 born on 04/03/2016 do 10723 do . calf sold
- * calf ERMF17-166 born on 18/03/2017 do 10731 do for sale at auction -20/05/2020
- Calf ERM18-173 born 15/09/2018

Please note the following current notification:

- * calf ERMF19-181 born on 29/12/2019 do 10738 do
- * calf ERMF20- 182 born on 06/01/2020 do 10738 do
- * calf ERMF 20- 183 born on 26/01/2020 do 10739

Are you sure about ERMF20-182 and ERMF20-183 birth dates?

Al die kalwers van ERM10-69 moet nog opgeneem word.

2. ERMF10 -60

1st calved calf ERM13-113 (see birth notification documents; 10712, 10719, 10737 and 10727 for calves ERM15--136, **ERMF16-158, and ERM18-175** (die in geel gemerk moet nog opgeneem word)

ERM10-60: haar 2013 – 2015 kalwers is reeds op die stelsel, moet die 2016 en 2018 kalf nog opneem

3. BN11-278 purchased from Mr Steenkamp total dispersal auction in 2017 as pregnant cow that calved in April 2017. see birth notification doc. no 10733 and 10734 for **ERMM17-170, ERMM18-171 and ERMF20-182** (moet nog opgeneem word) the latter obeing submitted now. instead of the 09/04/ due to lockdown conditions.

BN11-278: haar 2014 – 2016 kalwers is op Logix, moet nou die 2017, 2018 en 2020 kalf opneem.

Kan Marietjie maar voortgaan en die 3 diere se geboortes laai?

Groete
Liesel

Hi Liesel,

i note your response from my text. please note that before we talk about the money, we have to explain why my correspondance to you about these animalas were not taken serious in 2018? see all the attachments hereto:

Question 1

I responded on a document entitled "calving records of the herd (Magagamatala Ngunis -0606778000)

Question 2

Please see my birth notification documents i submitted through fax no 0514487304 or Fax to emai no 0866763759 unless your office would state that it has not been in use since then up to today.

Question 3 & 4

I know the rule but it would be unfair to subject me to such costs which i may not afford in years, when infect a mistake might have occurred (i suspect) somewhere away from my herd. i have to decide whether to stay on register or to part ways and continue as a meer comercial farmer. If these documents were not received as submitted for birth notifications as i stated above, I say Magie's office because she was dealing with birth notifications. Can we draw her attention in this regard? (please note that if these documents have nothing to prove my attempts to register my calves,i have a choise to make a decision.

Question 5

a) Dam no ERMF10-69 was born in 2010 .

* calve ERMF14-123 born on10/03/2014, birth notification doc. 10714 (attached). calve lost thru theft (got lost)
* calve ERMF16-153 born on 04/03/2016 do 10723 do . calve sold
* calve ERMF17-166 born on 18/03/2017 do 10731 do for sale at auction -20/05/2020

Please note the following current notification:

* calve ERMF19-181 born on 29/12/2019 do 10738 do
* calve ERMF20- 182 born on 06/01/2020 do 10738 do
* calve ERMF 20- 183 born on 26/01/2020 do 10739

.

b) Dam ERMF10 -60 Born in 2010.

1st calved calve ERMM13-113 (see birth notification documents; 10712, 10719, 10737 and 10727 for calves ERMM15--136,ERMF16-158, and ERMM18-175

C) Dam no BN278 (?born 2015) purchased from Mr Steenkamp total dispersal auction in 2017 as pregnant cow that calved in April 2017. see birth notification doc. no 10733 and 10734 for ERMM17-170, ERMM18-171 and ERMF20-182 the latter being submitted now. instead of the 09/04/ due to lockdown conditions.

d) Dam no BN254 seem to have calved (ERMF20-183) far beyond her actual set period. i talked to Mr Bothma about it and he has no problem to replace it. I will therefore discuss with Mr Bothma about the cow and her calve.

NB i wish you check these three cow's calves and tell me if they are still not considered as authentic registered animals, then i will decide thereafter. The question 7; on the invoice will follow the outcome of your decision and my decision pending on the fairness given to me. See all the attachments hereto. These documents were sent bith notification office through the use of fax no 0514487304 or fax to email no 0866763759.

Kind regards.

Ephraim.

Good day Ephraim,

Thank you for your email.

I've spoken to the technical committee and out of that there are a few questions:

1. These animals were cancelled in 2018, why didn't you question them in 2019?
2. Why are these calves mentioned below not on the system yet?
3. Please send me all the calves date of birth which are not on the system yet.
4. Please note that as these are late births DNA on the calves and mothers of the calves must be done that is not on the system yet (please see attach Unistel's prices – these are for your account).
5. How is it that ERMF10-69 has no calf records on the system?
6. Did an inspector inspect these calves (maybe as FR?)
7. Also take note that you will be invoiced per capita for all the years they missed to pay.

Please don't hesitate to ask should there be anything that you are not sure of.

Kind regards

Liezel Grobler

Subject: Re: Per Capita List / Per Kapita Lys -

Hi Louise,

I hope you are well. i confirm receipt of the message concerning the Per capiter List for my herd to respond to.

however, i wish to clarify the fact that there are cows that i regarded fairly performing given conditions (draught-stricken area) that i find myself subjected to.

i wish the following should have been given a chance:

1. ERMF10-60 - first calf, ERMM13-113, ERMM15-136, ERMF16-158,ERMM18-175 now preg.2020.
2. ERMF10-69- first calf ERMF14-123, ERMF16-153, ERMF17-166,ERMM18-173, ERMF19-181.
3. ERMF10-62 First Calf ERMF13-109, ERMF15-139, ERMF17-165,ERMF18-178 (dam died 29 April2020.
4. BN278 bought from Steenkamp auction in 2017 ? first calf in 2016, but waspreg. and calved ERMM17-170, ERMM18-171, ERMF20-182.

Are these performances extremely bad to disqualify these animals?

please advise.

NOTE: ERMF9-57 is dead on the 02/05/2020 (Lock Jaw condition), ERMF10-65 died and was reported.

ERMM15-141 is stolen(all the three are out)

kind regards

Ephraim.
