Good evening Marietjie,

My apology for the late response but I have had problems with the Vodacom network lately and although I have reported it, it does not seem to have helped much.

I herewith confirm that VEN16-27 gave birth to a heifer calf on 1/07/19 and that the Sire is Vilane/VEN6-11.

Regards,

Michèle Schmitt

Good afternoon Louise,

I refer to our recent telephonic conversation regarding the above-mentioned female. As I explained, VEN16-26 and VEN16-27 look so alike that one can easily confuse them. It came to my attention that I made a mistake and did not register the heifer of VEN16-27 which was born on 1st July 2019. I would appreciate it if you would be lenient towards me by allowing me to register the calving as VEN16-27 comes from a very good Dam line and has been certified to be in calf for the second time.

I thank you for your understanding and look forward to your response at your earliest.

Regards,

Michèle Schmitt
