Hi Marietjie,

Doen asb die volgende herinstellings vir Douglas Fletcher:

DF16008
DF 16065

Baie dankie

Douglas – The weaning weights may be “lost” in Logix as the cows were cancelled. Kindly make sure that when they appear on Logix the cows does not have a PEN/PRF status.

Thank you.

Kind Regards | Vriendelike Groete

Hi Douglas,

Attached the birth errors on the system. Should a birth end up as an error, Logix will not give an SA id number.

I don't know why you lose info between beefpro and logix. As discussed, let me know what you have forwarded the day after, and I will try to follow if the data has been received.

Thank you.
