Hi Michelle

Hope you are well!

Could you please have a look at the animal CDFT(GBH) 17014 - 0043718881.

BOWEN TAMAIR T51 (S) 0043718931 is mentioned as a calf?

Not sure what is going on there!

Hope to hear from you soon!

Naomi

Hi Naomi.

Reading through the Edit Lists I see the following.

The first two cows on the list are no longer in the herd , GBH14093 & GBH 110010. **Animals were cancelled**

The next one is missing a calf on the system. GBH 13033 calved on the 24/07/2017 and dose not seem to be on the system . The calf, GBH17072 (0090201468) **on Logix status is NFR** was a heifer but not registered SP, just a commercial as the sire was not recorded. This would sort out the inter calving of GBH13033.

GBH 150549 is not a SP cow so 190064 cannot be registered. **On**
