Good day Marietjie.

My Per Capita Lists for 2020 are attached.

I have a few queries though:

- 1:MGS 19004,MGS 19006, MGS 19009 are not included on the lists.Birth notifications were sent - 2 birth notifications per page and the second birth notification on the pages have all been recorded.
2. Animals MGS 20001 to MGS 20005 are all pending requiring additional DNA testing but MGS 20006 is shown as SP/61. All these animals have the same sire ???
- 3.MGS18001 was sold in January 2020 - see your reply e-mail to me of 20th January but he still appears on the list. Has Mr Eva been sent a change of ownership certificate?
- 4.On page 4 of the Per Capita list I have the option of receiving notifications from S.A.Stud Book in Afrikaans or English.For the past 20 odd years I have been selecting English as my preferred language but I still get notifications in Afrikaans - why ?????

Keep safe & have a good day.

Regards
