Hi Marietjie,

Vroulik WO 17 006 is afgekeur en behoort gekanselleer te wees.

Manlik WO 17 005 was afgekeur, maar Douglas Fletcher het die bul nou weer geïnspekteur en het per e-pos laat weet dat die bul inspeksie geslaag het.  
Verander asb die afkeur na goedkeur met die inspeksie datum presies soos dit was in 2019.

Baie dankie.

Hi Marietjie,

Bel my gerus indien iets hier onduidelik is. Al wat volgens my uitstaande is hier, is die DNA verslag end an die inspeksie-datum.

Baie dankie.

Hi Marietjie –

The email below refers – the animal below which we were attempting to register as WO 170006 is in fact the twin brother which will be marked as WO 170005 which has been inspected by Douglas Fletcher and passed – the bulls details are listed below – we have also submitted tailhair for DNA analysis.

Hi Linette –

I think we have now got it right – the bull we are wishing to register is the twin sister of the female animal referred to below –  
We have changed the tag to WO 170005 – Douglas has recently inspected the bull and passed it I will request him to confirm the inspection by email.

I will forward all data on this animal to Marietjie to be included under Logix.  
Thank you for your help in this regard,  
Graham Evans.

Hi Graham,

There is already a female on Logix with the number WO17 006 (she did not pass inspection on 17 May 2019), is it correct to assume that she was the twin sister to the bull that you are referring to?

If so, please provide an alternative tag or ear number for the bull. If the bull is not part of the twins, kindly provide the complete birth information.

**Douglas also needs to confirm the inspection date that the bull passed as mentioned below, otherwise the bull will be without an inspection date.**

Talk to you soon.

Hi Linette –  
I hope all is well with you all in Bloemfontein.  
I need your help please – the bull WO 17006 – which is not on Logix – was supposedly inspected by Doug Fletcher last year – he maintains that the bull was not presented for inspection, and marked it as such.  
He has recently seen the bull with the inspection of the 2018 calves, and is happy that it passes, but has not been given the necessary documentation to mark as such – that is understandable as the bull does not appear on Logix. How do we resolve this issue as we want to sell this bull in July and need it to be registered?  
Thank you for your help.  
Kind Regards,  
Graham Evans.

Thank you Marietjie –

WO 170005 has been culled in 2018 – poor confirmation ; WO170006 will be sold this year once inspection has been completed. This bull does not appear under Logix listing.

RAT 170704 appears on our Logix – all sorted – thank you.

Hi Marietjie –

Mystery on WO 709 solved –

This calf registered by Waterfall Stud as RAT 704 – date of birth 15/07/2017 – apologies for confusion – cow was sold to White Oaks the following month and transfer only done then.

Still can't work out confusion with WO 706.

Kind Regards,

Graham.

Kyk na die koeie se nageslag daar is reed kalwers op en hierdie pas nie in nie.

Laat asseblief weet wat hierdie kalwers se ma's moet wees.

Dankie en lekker dag!
