TOTAL: 3611

CONDITION

- Certification by the exporting country that the number of unfrozen (live) spermatozoa per dose complies with the minimum amount specified on the reverse side of this document.
- DNA profiles must be provided to the Registrar of Animal Improvement, and the relevant Breeders Society before release from quarantine, if not available at time of importation.

This authorization is subject to the compliance with the veterinary requirements set out in the attached permit and is also subject thereto that the intended importation meets with all the provisions of the said Act. This authorization does not exempt the importer from the provisions of any other law. This authorization may withdrawn by the Registrar should any false information be discovered in the application. This authorization is also not transferable. Imported semen shall under no circumstances be transferred, sold, given or donated to any other person or body unless prior written approval from the Registrar has been obtained. Any such approval shall be considered as new application for the importation of semen.

TABLE 5

LIVE SPERMATOZOA IN A DOSE OF SEMEN

[Reg. 11 (2) (e)]

Kinds of animals	Minimum amount	Line
1. Goats		
(a) Unfrozen semen		
(i) for servical Insemination	80 million	60%
(ii) for laparoscopic insemination	10 million	60%
(b) Frozen semen		
(i) for servical insemination	80 million	30%
(ii) for laparoscopic insemination	20 million	30%
2. Horses		
(a) Unfrozen semen	500 million	25%
(b) Frozen	200 million	25%
3. Sheep		
(a) Unfrozen semen		
(i) for servical insemination	80 million	60%
(ii) for laparoscopic insemination	10 million	60%
(b) Frozen semen		
(i) for servical insemination	80 million	30%
(ii) for laparoscopic insemination	20 million	30%
4. Pigs		
(a) Unfrozen semen	1500 million	70%
(b) Frozen semen	1500 million	30%
5. Cattle		
Frozen (Post thawing)	5 million	35%

**VETERINARY IMPORT PERMIT FOR BOVINE SEMEN FROM
THE UNITED STATES OF AMERICA**
[Issued in terms of the Animal Diseases Act, 1984 (Act No. 35 of 1984)]

With reference to Permit No **S0042/2-1 AND S0042/20-2** date **2020-02-25** issued in your favour by the Registrar, Animal Improvement Act, 1998 authority is hereby granted to introduce into the Republic of South Africa **20942** doses of semen provided that the following conditions are complied with:

1. The consignment must be accompanied by:

1.1 this original import permit and

1.2 the agreed upon model health certificate, completed by an official veterinarian duly authorised by the USDA, certifying the following conditions:

1.2.1 The donor bulls have been housed at an artificial insemination (AI) center which is recognized by the United States Department of Agriculture as approved to produce bovine semen for export. Bulls are entered into the production unit by a system of quarantine and testing and the production unit is tested semi annually for diseases of concern. The bulls were continuously resident within the center for at least one month prior to collection of Semen for South Africa, and in that time were not used for natural mating.

1.2.2 The United States is free of Foot-and-mouth-disease without vaccination, rinderpest, surra, and contagious bovine pleuropneumonia.

1.2.3 The AI center has been clinically free of infectious bovine rhinotracheitis (IBR) and bovine viral diarrhoea (BVD), enzootic bovine leucosis (EBL), Johnes disease for at least 12 months prior to collection of semen for export.

1.2.4 The donors were tested and examined prior to entry, during isolation before entering the resident herd, and before semen release for bovine viral diarrhoea virus in accordance with the CSS Minimum Requirements and found free from this disease.

1.2.5 The following antibiotics have been added to the semen and the extender during processing:

- 1.2.5.1 Gentamycin 250 mcg per ml;
- 1.2.5.2 Tylosin 50 mcg per ml
- 1.2.5.3 Lincomycin 150 mcg per ml; and
- 1.2.5.4 Spectinomycin 300 mcg per ml.

1.2.6 To the best of the knowledge of the certifying veterinarian, the semen is free from contamination of pathogenic microorganisms. The semen was examined microscopically and no evidence of blood cells was found.

1.2.7 The donor bulls were negative to the following tests within 6 months prior or 6 months after to the collection of the semen for export:

- 1.2.7.1 Brucellosis: Complement fixation (CF), buffered Brucella antigen test, SPT/SST OR other official USDA APHIS approved test
- 1.2.7.2 Tuberculosis: Intradermal caudal fold test using bovine PPD Tuberculin
- 1.2.7.3 Campylobacteriosis: Culture of preputial washings OR Polymerase chain reaction (PCR) of preputial washings
- 1.2.7.4 Trichomoniasis: Culture of preputial washings OR PCR of preputial washings
- 1.2.7.5 Leptospirosis: Microtiter agglutination test at the 1:400 dilution for serotypes L Canicola, L Grippotyphosa, and L Icterohaemorrhagiae
- 1.2.7.6 IBR: Serum neutralization (SN) test at 1:8 dilution or Elisa test or virus isolation of an aliquot of the semen being exported or PCR of an aliquot of the semen being exported.
- 1.2.7.7 Paratuberculosis: Complement fixation test at 1:8 dilution OR ELISA test OR PCR of an aliquot of the semen being exported OR Fecal culture within 12 months prior to semen collection

- 2. The semen must be adequately, securely and hygienically packed in flasks which were cleansed and disinfected and containing unused cryogenic material; sealed under veterinary supervision and conveyed by air to **CAPE TOWN INTERNATIONAL AIRPORT** (Port of entry).
- 3. The arrival of the consignment must be reported to the State Veterinarian **CAPE TOWN** Tel: **021 526 3260** Fax: **021 526 3271/2** and may not be removed from the place/port of entry without his/her permission and subject to any conditions imposed by such written permission.
- 4. The animals which have been inseminated with the imported semen may not be removed from the property for a period of at least thirty (30) days after insemination.
- 5. Any illness or death of cattle during this period of restriction must immediately be reported to the State Veterinarian of the area.
- 6. Full records of all sales reflecting the specific end users of the semen must be kept on file and made available to the Directorate of Animal Health on request.
- 7. The container and receptacles in which the semen is transported as well as all insemination apparatus used must be disinfected to the satisfaction of the State Veterinarian concerned.
- 8. This permit is valid for one consignment and is subject to amendment or cancellation by the Director Animal Health of the Republic of South Africa at any time without prior notice being given.

DIRECTOR: ANIMAL HEALTH

NOTE:

From 1st January 2005 any consignment imported into South Africa packed with either wood packing material or dunnage, will require treatment to remove any pests present (by heat or methyl bromide fumigation). Treatment must be indicated on packing material. [Enquiries: Directorate Plant Health & Quality Fax: 012 319 6350 or www.nda.agric.za]
