Môre Ann

Lees asb die e-pos baie mooi deur hierdie is diere wat opgeneem moet word in die Hulpstamboek B stelsel. As daar enige iets is wat jy nie verstaan nie, kontak my asb.

Inspeksie het op 5 Februarie 2020 plaasgevind en die inspekteur was 0564578SSX MNR. H.M. SEYFFERDT.

Sien ook asb kansellasies.

Hi Sonja

As per our discussion please see attached;

1) The Skietlaagte Stud Bull List - Please can you make the updates on the system by deleting the first 3 bulls. The first two are obviously no longer with us and JRE 110132 had to be slaughtered recently after he injured his leg.
2) The two databases of the cattle that were recently inspected namely Group 6 -2017 Heifers and Group 7 -2018 Open Heifers. I have updated the spreadsheets to include the individual details as all those annotated as Appendix B as per the inspection need to be loaded as such going forward. I have included all the birth dates and weaning weights, but please confirm if you will also require the Dam of each of those animals going onto Appendix B. This can easily be provided if required. As far as the Sires are concerned I will DNA test each of the calves of the 2017 Pregnant Heifers together with the 3 Bulls that were used to cover them and in this regard we will then have a full set of information for these calves.

Kind regards / Vriendelike groete
