Subject: Birth Notification

Good afternoon Marietjie,

I trust you are well.

I have been going through my registration and suddenly realised that there is a batch of animals whose birth notices I haven't entered. When doing so I came across a calf whose father is not a registered bull and is not marked NFR either but the dam is a registered animal how do I go about dealing with this?

The animal in question is GBK19-1504, sire is GBK15-0976 and dam is GBK13-0558, date of birth is 17/12/2019, birth weight is 39kg, natural service took place.

Kind regards

Tanya Kroon
