Hi

Ek sien die diere is in die wagkamer met foute.

Weet nie wat ek moet doen nie.

Laat weet maar.

Lekker dag1

Hello Liesel,

Thanks for your email,

1. Please see attached list of animals that I purchased on the recent KZN Elite Nguni sale. When will they be transferred from the breeder to Leopard Ridge?
2. As for the list that you sent through to me,
 - a. RV15-62 had a heifer calf on 6/11/19 – LRC19-36
 - b. DS16-1 – will do a pregnancy test
 - c. RVS16-24 had a heifer calf on 20/10/19 – LRC19-35
 - d. XA16-67 – will do a pregnancy test
 - e. WT13-117 had a bull calf on 20/5/20 – DUN20-7
 - f. Q8-83 had a bull calf on 1/11/19 – LRC19-39
 - g. WT9-81 – cancelled

Most of the above cattle with the exception of Q8-83 are young animals. Q8-83 has been a prolific breeder throughout her life and deserves a chance. She could have aborted, as she has not missed before. As for the other animals, we have just come out of a 5-6 year drought, and the young animals took strain. I would really like to make a note on them and check if they miss a pregnancy again in the future. They have come out of good breeding and deserve a chance.

Let me know if you have any queries,

Best Regards,

Dale Cunningham
