Hi Lea

Sal jy asseblief vir ons na die volgende kyk:

- i) TOR 12-62 was mated by AI to TOR 10-197 on the 6th of March 2017. The resulting calf was TOR 18-271.
 - Verander die kalf TOR 18 0271 se dekking na KI en laai dan asseblief 'n dekking vir 6 Maart 2018. Moontlik is daar reeds 'n KI-dekking wat die teler self gelaai het, maar die wil nie deurgaen nie, miskien omdat hy 'n verkeerde jaar aandui.
- ii) TOR 12-73 was naturally mated to TOR 15-108 from the 1st of Feb to the 31st of March 2019, the resulting calf was TOR 20-11.
 - Teler het reeds dekking elektronies ingestuur, maar wil nie opkom nie, kan jy kyk of daar dekking is of laai asseblief.

Baie dankie.

Groete

Hi Evelyn,

I can't seem to get these matings correct. but here are the details.
