Re: 2020 Sale Ani...

Message 5 of 1799

From **James Miller**To **Herman Labuschagne**Cc **Anna-Marie**, **elsa@studbook.co.za**, **michelle**

Date

Good Day Herman

Ive included Michelle in the email as she handled the query initially.

I have pasted the same email i sent on the 6th May 2020 below in Red. Important part highlighted in yellow.

BG 110012 and Gumhill Red E530 are not the same bull.

EMAIL 6th MAY 2020

Thanks for your response Michelle and Herman

I understand Covid 19 has had an impact on how you operate and this is 100% acceptable, I just hadn't heard anything in 10 days after 2 emails so just let me know you've received the email then Ill wait for your response.

In seeing the 2 screen shots I have managed to work out why this keeps happening. Both E530 and BG110012 have the same computer number on Bengu. Not sure how this happened but I'll look into it.

For Clarity:

BG 110012 - Comp No. 0072957749

E530 - Comp No. 0083398818

I have fixed this which should prevent this from happening again.

Any idea why the animals with 642A as a sire didn't reflect a sire on the Phase D print out two years in a row? Ive checked and Computer numbers are correct in this case. Also looks like data sent in on 19/12/2018 included 642A as the sire?

Thanks so much much for the help. I'd far rather sort these issues out now than it delay the printing of catalogues before the bull sale.

Thanks Michelle the list now looks correct.

All Gumhill Red E530 calves from my 2016, 2017 and 2018 calving are incorrectly recorded on Logix as sired by BG 110012. BG110012 was slaughtered in 2014 so it's impossible that he completed matings in 2015, 2016 and 2017.

In short - all active and Inactive animals born in 2017 and 2018 with the sire BG 11 0012 need to be corrected. Their sire is actually Gumhill Red E530 and not BG 11 0012.

I hope this is clearer now. Thank you for your help with this.

I managed to get onto Logix and there are still a number of 2016, 2017 and 2018 animals with BG 11 0012 as sire which is impossible. Please let me know once corrected so we can check catalogue again.
