Subject: E150104 and calf E200017

Hi Marietjie

Cow E150104 - in 2017 her calf was not registered and therefore not sent to Logix.

Details - date of birth 18 May 2017. Dam E150104, Sire E130299, birth weight 29kg. Calf number E170497 not for registration.

I see the cow is not on Logix.

Please can she be reinstated as her current calf E200017 needs to be registered. (It's on your list that you sent me of Birth Errors)

Many thanks!

regards

Michelle
