Dear Breeder

The Logix system is a very refined
system and many checks and tests are
done before being incorporated into the
system. Logix's aim is to ensure that all
biological and breed standards are
adhered to and thus ensure that reliable
(clean) data is recorded for further use
in Genetic evaluations. This results in
Editing lists, also known as "Error lists"
being generated after the clerk cannot
resolve the issues, and the breeder
must be contacted to obtain further
information to record the transaction
fully.

Attached is your herd's Editing List and
you are kindly requested to reply on
every transaction. If such a transaction
is not resolved within two (2) years, the
transaction will be deleted from the
system and you will have to resubmit it.
These lists will be sent to you on a more
regular basis for the purpose of
improving our services to you.

We look forward to hear from you.
Please sent feedback to the person from
whom this email has been sent and not
to Logix.
