**Rushmere cows no ICP**

Hi Twane

These are the cows with no ICP even though they calved every year. I think they slipped through the cracks as some of the calves were from non registered bulls and some from semen that i didnt have a semen share in.

I have just given you the dams tag number and calving date with birth mass.  
The calves are not for registration so sex of calf shouldnt matter.

I hope this is all you need ?

Thanks for your help.  
Regards Patrick Rushmere
