Subject: Re bulls

Morning Siebert.
Hope all is good in these uncertain times.
Hope you can help me out with the problems below.

We had all our bulls DNA tested and got lots of sires back that will give us correct readings on logix instead of just multiple sire. Can you fill in these sires below too.

I have a problem with some bulls on the farm and have incorrect numbers or we duplicated somehow.

These are TG 170262.	SHOULD be TG 170086	mother is WO
140951	Sire is BA 110277	
	TG 170249 SHOULD be TG 170077.	mother is BA
130440	Sire is M 110117	
	TG 170200 SHOULD be TG 170089.	Mother is WO
140109	Sire is BOS 11 1726.	

I will ask Twane to change the number of these 3 bulls .

Can you also send the Sire verification results of the lab to Twane so that she can upload the Sire

These five bulls are not on the system but were there. I don't know if they got deleted by mistake.
