Hallo Anne & Oom Piet en Marietjie

Please see below.

I have e-mailed an inventory last week, and Foleshill Annabelle PB 1833 - is recorded as PEN/PRF was the only PEN animal on the list.

For registration purposes cattle needs to be SP, the REG and RRG is a subdivision and both will result in SP.

PEN and NFR are problematic.

Please contact me on my cell (082 4272 338), should you have enquiries that is not explained clearly with emails.

Baie dankie en groete vir Oom Piet.

Kind Regards | Vriendelike Groete

Subject: Foleshill Registration Queries...

Liewe Linette...

Lees asseblief die volgende en kan u dit aan SA Studbook aanstuur.

Kan ek na die korreksies 'n nuwe Inventory/Per Kapitalys kry.

Foleshill Enchant PB 1829 – retained – she wasn't culled. Marietjie doen asb 'n herinstelling indien sy gekanselleer is.

Foleshill Annabelle PB 1833 - is recorded as PEN/PRF – Why?? I have sent you an e-mail last week, she does not have a birth weight. Perhaps just a mistake or finger error by somebody. As soon as a birth weight is recorded, she will be corrected.

All the 2017 calves – male and female – are recorded as RRG....[This is correct, it was due to the bulls listed below did not have DNA – but the Society override the requirement and "forced" the DNA. There were problems implementing decisions taken at the AGM \(production recording was the main problem\)](#)
...BUT the 2016 and 2018 calves by the same sires as the 2017's are all REGISTERED – REG.

Herewith Sire PB1328	Males: PB 1805; PB 1825 Females: PB 1802; PB 1804; PB 1807; PB 1819; PB 1836	ALL REGISTERED
Sire PB 1332	Males: PB 1810; PB 1820; PB 1826; PB 1840	ALL REGISTERED
Sire KCM 1309	Females: PB 1812; PB 1814; Females: PB 1625; PB 1646; PB 1664; PB 1666	ALL REGISTERED

Please ask them to attend to the above...

Groete
Piet
