Unistel report these results on the premise that the biological samples received are from the individuals nominated by the owner/breeder/requester. This Certificate replaces all previously issued certificates. Disclaimer: While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Please note: Some STR profiles used in percentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for percentage mismatches due to incompatible marker scoring strategies between laboratories. Unistel Medical Laboratories participates in ISAG compliance testing and therefore incorporates international scoring standards in the generation of our STR profiles.

Unistel report these results on the premise that the biological samples received are from the individuals nominated by the animal breeder/producer. This Certificate replaces all previously issued certificates. Disclaimer: While every reasonable effort is made to prevent faulty results, Unistel Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract.

Please note: Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unistel Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories. Unistel Medical Laboratories participates in ISAG compliant testing and therefore maintains their external scoring standards in the generation of our STR profiles.

Initial report from results on the premises that the biological samples received one from the individuals nominated by the owner/ breeder/ requestor. The Certificate of Analysis will be provided to the owner/ breeder/ requestor. The results relate only to the samples tested. Should gross negligence be proven, the client shall not exceed the value of the contract. Please note: some S114 profiles used in pedigree analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Uniled Medical Laboratories does not accept any responsibility for pedigree mismatches due to incomplete or incorrect information received from the client. Therefore, Uniled Medical Laboratories reserves the right to perform additional testing and/or re-testing of the samples at the discretion of the laboratory.

The results remain only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract. Please note: some STR profiles used in pedigree analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unisid Medical Laboratories does not accept any responsibility for pedigree misanalysis due to incompatible marker pairing strategies between laboratories. Unisid Medical Laboratories participates in ISAG certification testing and therefore incorporates international testing standards in the generation of our STR profiles.

Unisat report these results on the premise that this biological sample analyzed are from the individuals nominated by the owners/breeder/requirement. This Certificate replaces all previously issued certificates. Disclaimer: While every responsible effort is made to prevent faulty results, Unisat Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should greater negligence be proven, the claim shall not exceed the value of the contract. Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent inquired results, Unisat Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatibility marker scoring strategies between laboratories. Unisat Medical Laboratories participate in ISAG compliance testing and therefore incorporates international scoring standards in this generation of our STR profiles.

Unlabeled report these results on the premise that the biological samples received are from the individuals nominated by the owner/breeder/requester. This Certificate replaces all previously issued certificates.

Disclaimer: While every reasonable effort is made to prevent faulty results, Unlabeled Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should these regulations be proven, the claim shall not exceed the value of the contract.

Please note: Some STR profiles used in pedigree analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unlabeled Medical Laboratories does not accept any responsibility for pedigree attributions due to incompatible marker scoring strategies between laboratories. Unlabeled Medical Laboratories participates in ISAG comparative testing and transmits international breeding standards in the generation of our STR profiles.

Unilateral report these results on the premises that the biological samples received are from the individuals nominated by the owner/ breeder/ requestor. This Certificate involves all previously issued certificates.
 Disclaimer: While every reasonable effort is made to prevent faulty results, Unilateral Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Should gross negligence be proven, the client shall not exceed the value of the contract.
 Please note: some STR profiles used in percentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unilateral Medical Laboratories does not accept any responsibility for percentage misattributions due to incomplete marker scoring strategies between laboratories. Unilateral Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards at the generation of our STR profiles.

Unilever report these results on the basis that the biological samples received are from the individuals nominated by the owner/ breeder/ requestor. This Certificate replaces all previously issued certificates. Disclaimer: While every reasonable effort is made to prevent family repeats, Unilever Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. The results relate only to the samples tested. Stock's gross negligence has proven, the claim that not exceed the value of the contract. Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unilever Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatible marker scoring strategies between laboratories. Unilever Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our STR profiles.

Unisul report these results on the premise that the biological samples received are from the individuals nominated by the owner/breeder/ requestor. This Certificate replicates all previously issued certificates. Direct owner: While every reasonable effort is made to prevent faulty results, Unisul Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. This results relate only to the samples tested. Should gross negligence be proven, the claim shall not exceed the value of the contract.

Please note: some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unisul Medical Laboratories does not accept any responsibility for parentage mismatches due to incompatibility resulting from different scoring strategies between laboratories. Unisul Medical Laboratories participates in ISAG comparison testing and therefore incorporates international scoring standards in the generation of our STR profiles.

Unilab report these results on the promise that the biological samples received are from the individuals nominated by the owner/breeder/requirement. This Certificate replaces all previously issued certificates. Disclaimer: While every reasonable effort is made to prevent faulty results, Unilab Medical Laboratories do not accept any responsibility for any losses that may occur as a result of human or technical error. Should gross negligence be proven the claim shall not exceed the value of the contract. Please note: Some STR profiles used in parentage analysis may have been sourced from another laboratory. While every reasonable effort is made to prevent incorrect results, Unilab Medical Laboratories does not accept any responsibility for parentage estimations due to incomplete marker scoring amongst laboratories. Unilab Medical Laboratories participates in ISAG comparison testing and therefore incorporates into national scoring standards in the generation of our STR profile.
