VETERINARY IMPORT PERMIT FOR THE IMPORTATION OF FROZEN IN VIVO DERIVED BOVINE EMBRYOS FROM THE UNITED STATES OF AMERICA (Issued in terms of the Animal Disease Act 35 of 1984)

With reference to Permit No. **E0013/19-1** dated **2019-04-30** issued in your favour by the Registrar of Animal Improvement Act 62 of 1998, authority is hereby granted to import into the Republic of South Africa from **THE UNITED STATES OF AMERICA** by air through O R TAMBO International Airport **26** frozen bovine embryos originating (exporter) **TRANS OVE GENETICS-YACKLEYS, 18430 308TH AVENUE, ONIDA, SOUTH DAKOTA 57564 USA**

subject to the following conditions:

1. The consignment must be accompanied by the original Veterinary Import Permit and the original Health Certificate issued by a veterinarian authorised thereto by the Veterinary Administration of **THE UNITED STATES OF AMERICA**
2. The conditions of the agreed upon veterinary certificate on the reverse hereof, (Ref: FINAL- January 17, 2008), must be complied with and the certificate duly signed.
3. The Quarantine Master at KEMPTON PARK, Tel 011 393 7980 or Fax 011 973 2828, must be timeously advised of the probable date of arrival of the embryos without whose authority the embryos may not be landed. The embryos may not be handled, distributed nor removed from the place of entry without written permission from the Quarantine Master
4. The consignment is to be consigned to and distributed by the **TARUS EVOLUTION** AI Centre.
5. This permit is valid from 2019-06-03 to 2019-12-03 and for one consignment.
6. Embryos resulting from in vitro fertilization or embryos which have been subjected to sexing, splitting, cloning or any manipulation which interferes with or violates the integrity of zona pellucida are not eligible for export to South Africa.
7. This permit is subject to amendment or cancellation by the Director Animal Health at any time and without prior notice being given.

DIRECTOR: ANIMAL HEALTH

NOTE:

Any consignment imported into South Africa packed with either wood packaging material or dunnage, will require treatment to remove any pests present (by heat or methyl bromide fumigation). Treatment must be indicated as per IPPC prescript on wood packaging material.

TOTAL: 26

Conditions

- a) Certification by the exporting country that the number of unfrozen (live) spermatozoa per dose complies with the minimum amount specified on the reverse side of this document.

This authorization is subject to the compliance with the veterinary requirements set out in the attached permit and is also subject thereto that the intended importation meets with all the provisions of the said Act. This authorization does not exempt the importer from the provisions of any other law. This authorization may withdrawn by the Registrar should any false information be discovered in the application. This authorization is also not transferable. Imported embryos shall under no circumstances be transferred, sold, given or donated to nay other person or body unless prior written approval from the Registrar has been obtained. Any such approval shall be considered as a new application for the importation of embryos.
