DNA TYPING

The following animals have been DNA typed and included in the DNA database of the ARC:

Animal ID	DNA-number	Gender	Breed	Birth Date	Registration #
BV17.41	P2053/20	Male	Drakensberger	08/10/2017	85923621
BV17.20	P2054/20	Male	Drakensberger	04/09/2017	85770022
BV17.14	P2055/20	Male	Drakensberger	25/08/2017	85714723
BV17.8	P2056/20	Male	Drakensberger	14/07/2017	85578029

The verity of the results depends on the assumption that the submitted samples represent the animals that were indicated by the submitter. Although S.A. Stud Book is notified of all DNA numbers issued, genotyped and parentage results are kept confidential, except when the results form part of the annual mandated parentage verification program conducted by S.A. Stud Book. These genotypes were generated using proven technology for DNA profiling in livestock. While extensive measures were taken to ensure the integrity of these genotypes, the ARC assumes no liability for errors that may arise as a result of their veracity, interpretation and/or use.
