[More Elize](#)

I can confirm that the cow AB16-142 was sold to Everstar stud in May 2019 for R37000 and did have a heifer calf born 21 April 2019 at foot AB 19-006. According to my records the cow was transferred but not the calf. I do neither have a cancelation date for the calf.

I would appreciated if the calf can also be transferred to Everstar stud.

Thank you  
AB Butler

Dear Mr Butler,

Can you please assist me with this e-mail, according to our record the cow is cancelled : died - but according to Mr Chris Nel he bought them from you during your auction of 2019?

Regards,
