Re: Fwd: Logix update

Message 6 of 19

From **Mokgethoa Chokoe**
To **marietjiec**
Date **Wed 09:33**

Good day
Hope you are well.

I refer you again to the emails from the 30th of July and August 7th.
still at the same position with SPD 20 - 002, SPD 20 - 03 and SPD 20 - 004.

Also, SPD 20 - 05 and 20 - 06 are also not on the inventory list, I don't know
why this is the case?
I have received a message saying that 20 - 05 has been processed.
Can you please assist me, I would like to record the weights of these animals at
weaning.

Thanks in advance

Good day.
I hope you are well.

I would just like to refer you to this previous correspondence from 30 July
2020.

And to add on to it, I checked the inventory list. You mentioned that you had
sorted out SPD 20 - 02, 20 - 03 and 20 - 04
However I see that SPD 20 - 02 is still recorded as male rather than female
and SPD 20 - 03 and 20 - 04 are both not on the list.
What could be the reason?

Your assistance will be highly appreciated

Kind regards

Good day Mariejie

I hope you are well and staying safe during these difficult times.
I seem to have missed this very last email that you sent, my apologies.

I take it you're asking if you can cancel with calves to the 2015 cattle, and
if so I noticed that the calves were not showing up on the inventory so I
was under the assumption that they were never successfully registered
because the mothers were rejected at inspection. You could clarify this.

And just to confirm, you need me to send you the details to the calves of
PZ 10 - 006 in order for you to register them?

My apologies again for the delayed response.
Your help is greatly appreciated

Kind regards
Mokgethoa Chokoe
