Hoop jul het jul aftyd geniet oor desember en dat die nuwe jaar alreeds voorspoedig vir jul begin het

Ek kan nie glo ons al amper deur die eerste maand nie - tyd vlieg omtrent

Ek is besig om deur al ons diere te werk en hier is die waarvan die geboortes nog nie op logix verskyn nie

Ek het nog 'n hele paar maar die mammas sal eers gekeur moet word voordat hul sal laai

Sal jul asb laat weet of dit al is van die geboorte inligting wat kort of wat moet ek nog vir jul intrek - ek somer op herdmaster 'n file create wat al die info vir my gee so ek kan as daar iets kort maklik nog iets bystuur

Op die logix lys is daar ook so 10/11 foute tov te veel nulle of te min en dit gaan by my veroorsaak dat my gewigte soos ek hul wil instuur nie ooreenstem met logix nie - ek stuur dit ook sodat ons daarna kan kyk dan weet ons alles 100% as ek nou gaan begin weeg en gewigte instuur

LR210295 moet wees LR21295

ROC 2300001 en ROC 230043 se spasies na die roc moet asb uitkom anders gooi dit als by my uit as onbekend as ek gewig wil instuur - moet wees ROC230001 EN ROC230043

ROC22223 kort 'n nul moet wees ROC220223

ROC22411 kort ook 'n nul moet wees ROC220411

ROC23023 moet wees ROC230023

ROC23041 moet wees ROC230041

ROC23044 moet wees ROC230044

Die volgende diere sien ek is gelaai as LR maar hul ma's is ingekeur en hul is alreeds geki met c11505 - as ons nie die lr verander na ROC nie gaan hul met my brangus beeste bots en gaan ek nie die gewigte reg kan instuur nie of enige geboorte ens wat op hul van toepassing is

sal jul asb hul id nrs verander

As al bg reggestel is en die geboortes gelaai is is ons 100% reg met logix en my diere op herdmaster en kan ek soveel meer gewigte ens instuur

Geniet jul dag en asb as iets onduidelik is laat weet my dat ek jul kan help of dat ons saam kan probeer om die probleem uit te sorteer

groete
Nerina
