Hi Twane

Need help again.

I by mistake deleted TG 190030. Please reinstate her. She is a calf of BA 150700.

If you need more on calf details I will resend to you, but should still be on system.

Also TG 190088 also got deleted by mistake. Please reinstate her. Her mother is TG 160066. Calf is a female born on the 11/09/2019 . Birth weight is 32kg . Sire is Casey 656. This sire does not come up on logix. He is from USA and is a A I Bull. I will ask Herman to see to it too, but if you can also tell him.

Thanks

Louise English
