Hi Marietjie

Please can you help. This calf correction was not put onto the system.

DJD 180007 was not changed from being recorded as a Bull to a Heifer.

I still cannot get myself logged into the SABeef bulls on the Logix site.

I have contacted Dr van der Westhuisen but have no reply.

My Login details should be:

Username dawn view

Password 1tn1xqa for stud number 0675386.

If you are able to help me or put me in contact with someone who can help me through team viewer I would appreciate it.

I will be back in the office on Monday 28th September 2020.

Regards

Angie Raw
