Good morning Nina.

Thank you for loading the births onto the system. There are two errors that need attention.

Calf GCS 200115 has been recorded as a female but is in fact a male.

Calf GCS 200105 is not recorded at all. She was born on 21-08-2020, Sire is GCS 17-14, Dam is GCS 16-111 and she weighed 34kg.

Kind regards.

Graeme Stanford.
