1 Introduction

1.1 Definitions

1.1.1 Registered Boran means a Boran that has been entered and accepted onto the BCBS herd database (LogID). A Boran will be accepted into the call book section (S101b) (1.1.1) on receipt of the calf birth notification. A Boran will be accepted to Studbook Proper (SP/No REC) on passing inspection. A Boran that has been built on a registered dam is permitted to be registered on an outstanding issue to not a registered Boran in terms of three sale in his. Examples could include the following: - Foreign-bred not Vented (FNV), Parents not inspected (PNI), MS (Mist) Sire (requiring verification), Sire requiring verification (RES) and Dam requiring verification (DED).

1.1.2 inspection is a visual appraisal of a Boran by BCBS approved inspectors to ensure compliance with the society's standards of excellence. A Boran must pass inspection to be accepted to the Studbook Proper (SP/No REC) section of the society's herd database within the stipulated timeline. A Boran that fails inspection will be designated and removed from the herd database.

1.1.3 Screening of sales is an appraisal of a Boran for functional faults and compliance with Society terms and minimum breed standards. In the case of Boran sold registered in the call book section of the herd book, screening does not qualify as an inspection.

1.1.4 A Dispersal Sale will be held by a Breeder who is permanently discontinuing the business of breeding and farming with registered Boran, and consequently needs to sell all his registered animals to facilitate degeneration as an active breeder with the society. This sale will be deemed to be a dispersal sale and hence trigger broader degeneration if:

1.1.4.1 the breeder uses the word *dispersal* sold or similar words or phrases in their advertising and/or marketing of the sale

1.1.4.2 the member fulfils the society's dispersal sale

1.2 Members of the Society are encouraged to sell registered Borans under the auspices of the Society. This will ensure that:

1.2.1 the Boran comply with the Society's minimum standards of purity and functionality by verifying the pedigree and performance data.

1.2.2 the Boran is of a consistent quality and high standard by screening each animal on site.

1.2.3 your clients are protected in that all animals on offer meet the breed standard.

1.2.4 your clients have a reliable method of addressing possible queries and complaints.

1.2.5 the breed develops a trustworthy reputation in the beef industry with better buyer confidence and price of meat.

1.2.6 the society can support you in the event of queries, dispute resolution, marketing and publicity.

1.2.7 the benefit of *Allegiance* as a fair price is offered to both buyers and sellers and thereby builds the trust of the buyer market, ensuring the sustainability of our breed.

1.3 The Society will approve any production sale of registered Boran cattle provided that:

1.3.1 Prior to the auction or sale of such sale, the seller must contact the Society with the details of the sale.

1.3.2 Both the Sellers and the Society will sign a written agreement.

1.3.3 The Seller adheres to the requirements detailed further in this document.

1.3.4 Should the requirements detailed not be met, the Society will be entitled to:

1.3.4.1 Impound the requirements

1.3.4.2 withdraw permission that the sale be presented under the auspices of the Society

1.3.4.3 if warranted, suspend the membership of the relevant member.

2 Application to hold a sale under the auspices of the Boran Society

2.1 All sellers accounts may not be outstanding with the Society for more than 60 days.

2.2 The Society and the appointed organizer will handle all communication relating to the sale. The organizer will be responsible for the communication with other sellers involved with the sale.

2.3 On approval of the application the Society office will furnish the organizer with the official entry forms, which must be completed and returned to the office at least 2 (two) months prior to the date of the relevant sale.

2.4 Each seller and the Society will sign a written agreement concerning the conditions that will apply to the sale.

2.5 It is the responsibility of the seller to provide all fertility, pregnancy and health test results prior to the sale and deliver the originals to the auctioneers before the working date and time.

2.6 It is recommended that sales in the same area should not be presented within one week of each other to prevent the sale being regarded as a sale unless the organizers of both sales agree to such an arrangement.

2.7 Only one auction under the auspices of the Society can be held on any one day.

2.8 No other sale may be held (over 60 weeks prior to the National sale).

2.9 Existing sales history will be taken into consideration when sale dates are allocated by the Society. If an auction with history is booked for two years in a row and the auctioneer does not take place in those two years, the seller forfeits the date and the date will be allocated to another seller. If a date is booked and the date change or the auction is cancelled, a fee of R 1000 will be charged. If there is a valid reason for the change of the date or the cancellation of the auction, the auctioneer must be submitted to the Council for every prior.

2.10 A document detailing the rules and duties of the auctioneers will be submitted to the relevant auctioneers for their signature. The Society reserves the right not to approve an application for a sale to be presented under the auspices of the Society should it emerge that the auctioneer has been in disrepute with the Society.
