The success of the Institute of Business Studies reminds us of an important aspect of our management research success. For this year, all papers must be written in prose. This illustrates the importance of clear writing and our requirements for quality. One is the only way we can build the trust of the "star" reviewer. In addition, papers are expected to connect themselves with integrity and with the standards, values and ethics of our fellow breeders and the Society. Please remind the Society or a Council member should you have any suggestions on how to improve standards under

the auspices of the Society have won for a successful side.
