

SA Stud Book

- For over 100 years, SA Stud Book have taken hands with Breeders' Societies, Stud and Commercial Farmers, to build and establish the Southern African livestock and animal sector as a sustainable and economical resource for all Animal Breeders
- SA Stud Book is the most important player in the genetic improvement of animals and livestock producers in Africa.
- We are the first and biggest Registering Authority under the South African Animal Improvement Act, servicing 80 different animal breeds and species in numerous countries.
- We are proud that all our services, calculations, genetic evaluations and the LOGIX Animal Recording System carry the ICAR certificate of quality. We also make sure that all our service providers, such as analytical laboratories are fully accredited and trusted. Our credibility and that of our breeders and their data is of uttermost importance to SA Stud book.
- We strive to be at the heart of every Livestock and animal breeding program in Africa and beyond.
